Re: Receipt of Notification of Material Error or Omission in a Campaign Report

This letter is in response to the July 28th notification and subsequent e-mails between Karina Renna and me.

I received a campaign contribution from ONEOK of \$200 via a check dated June 18, 2010. It was intended to be a contribution for the Primary cycle. I deposited the check on August 5th and thus I included it in the report dated October 25th. I actually **received** the check on August 2nd.

In an effort to make the accounting simpler for my treasurer and me, I date each check on the report the same as my deposit slip so I can later match up the paperwork. In this case, this check fell into the next cycle. In the future, to eliminate the risk of making this error again, I will date items on the report with the date I actually receive the donation.

I'm sorry for the confusion and hope this explains the discrepancy. Please let me know if you need more information. I will consider this matter closed unless I hear from you again.

Sincerely,

Lisa Benlon
District 22 House Candidate
