To Whom It May Concern:

In preparing my Final Receipts and Expenditures Report, I found that my ending balance from my last report was overstated by \$450.00 due to two checks having been recorded twice. The ending balance should have been \$22, 676.01 instead of the reported \$23,126.01. The duplicate transactions were the KS Automobile Dealers PAC check in the amount of \$200.00 on 12/19/11 and Walgreens Family of Companies check in the amount of \$250.00 also on 12/19/11.
